Battery Powered Sheet Lifter

Optional power source for all motorized sheet lifters. Just attached to your crane, no power cord needed!
Provides full time or auxiliary power in case of power failure.

NEW

OPTION FEATURES:

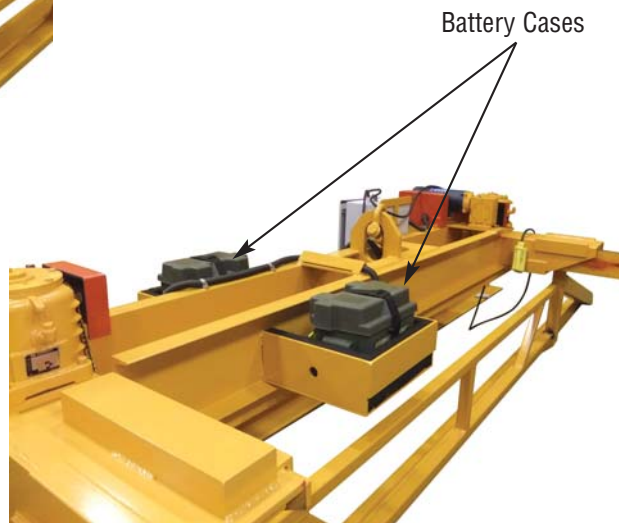

- Long Lasting Rechargeable Batteries
- No power source needed
- Easily moved to different cranes
- Charging system included

This Model 60BMS-5-96 will lift sheets up to 96" wide and uses full-time battery power to operate.

Charger mounted to unit.

Battery Cases

Battery Power can be applied to other motorized products as well, ask our customer service if your new motorized lifter can be battery powered.
