

BUDGIT® Hoists

Budgit Spark and Corrosion Resistant

Plain Trolley

Plain Trolley

Budgit I-Beam Hook Suspension Trolley provide a quick, easy, and safe way to transport materials. Requiring little effort to traverse even when loaded to capacity, these trolleys are built for convenience and mobility.

Additional features and benefits include:

- Deeply embossed steel sideplates on the 1/4 through 2 ton models provide a high strength to weight ration.
- Sideplates are of wraparound design providing a full face bumper as well as a protective lug which will prevent trolley from falling off I-beam in event of inadvertent wheel axle failure.
- High-quality pressed steel wheels ensure long life.
- Spark resistant models have beryllium copper wheels.
- Built-in ball bearings to provide smooth easy rolling motion and compound tread design.
- The cross pin connects the sideplates and provides equalized wheel loads.
- Trolley is easily adjustable to fit several sizes of beams by simply shifting cross pin spacer washers from inside to outside of trolley sideplate.
